LUXURY POWER CATAMARAN

Yes, we're there yet.

OUT THERE STARTS HERE™

Aquila Catamarans was founded on a belief that better was possible—and that the best way to get **Out There** was to think out there. With decades of boatbuilding experience and a global collaboration of award-winning designers and engineers, Aquila has become the world leader in performance-driven, innovation-packed catamarans.

But “Out There” isn’t just where our boats take you. It’s how we think, how we build, and how we push boundaries – challenging conventions in everything from hull design to onboard experience. Every model is born from out-there ideas, cutting-edge technologies, and a relentless pursuit of what’s next.

Today, hundreds of new Aquilas cruise waters across the globe every year, each one crafted with the reliability, durability, and confidence that only comes from a forward-thinking legacy.

Because **Out There Starts Here** – in our designs, our mindset, and in every journey that begins aboard an Aquila.

KELINGKING BEACH, INDONESIA

INSPIRED BY THE ISLANDS. DESIGNED AND BUILT BY THE WORLD.

Catamarans are believed to have originated in **Indonesia** circa 3000 to 1500 BCE. The shallow draft mitigated the risk of running aground, and its twin hulls provided essential stability in treacherous waters. Long-time boaters and colleagues **Lex Raas, John Xiong** and **Bill McGill** recognized the potential of this ancient engineering and worked together to create **Aquila Power Catamarans**.

Born in **Johannesburg, South Africa**, Raas sailed anything and everything he could, entering his first regatta at age four. Xiong's **Sino Eagle** shipyard is a globally recognized

producer of kayaks, rowing shells and surfboards, some of which have been used in the Olympic Games. Together with the impressive distribution reach of **MarineMax** led by McGill, Aquila was launched.

Aquila's **Clearwater, Florida** headquarters—led by Jean Raas—drives design, product development, marketing, purchasing and post-sales service. Aquila has also worked with world-renowned yacht design firms such as J&J Design in **Ljubljana, Slovenia**, Peart Yacht Design in **Cape Town, South Africa** and VPLP in **Paris, France** to bring best-in-class

design sensibilities, innovation, and sustainability considerations to the portfolio.

Our state-of-the-art facility in **Hangzhou City, China** brings together leading components from global suppliers such as Volvo Penta, Raymarine, Kohler, and hundreds of others. Sophisticated tooling and ventilation systems, extensive process and quality controls, substantial use of solar power, and a workforce of more than 500 employees combine to make Aquila the world leader in power catamarans.

L-to-R: Frank Xiong, Bill McGill, John Xiong and Lex Raas

LUXURY

This isn't about showing off—it's slipping away in ultimate refinement; the pinnacle of intelligent luxury at sea.

70 LUXURY

A large, sleek catamaran is shown from a low angle, moving across the water. The vessel's hulls are white, and it leaves a wide, white wake behind it. The water is a deep, dark blue, and the sky is a lighter, hazy blue. The overall scene conveys a sense of speed and luxury.

70

LUXURY POWER CATAMARAN

The award-winning **Aquila 70 Luxury power catamaran** represents the pinnacle of intelligent luxury at sea. Gorgeous lines and superior balance create a vessel that feels as extraordinary as it looks. From the breathtaking 27' wide master suite to the bright, inviting spaces designed with European flair, every detail blends sculptural beauty with engineering precision. This is where form and function converge to create a sanctuary where limits disappear and beauty reigns supreme.

SLIP AWAY IN ULTIMATE REFINEMENT

Every texture, every line, every feature has been crafted with intention—nothing wasted, nothing superfluous.

Expansive decks provide panoramic views that stretch to the horizon, turning ordinary moments into extraordinary memories.
